

Palestinian Displacement

(Pre-genocide)

9.8 million Palestinians (out of ~14.8 million) were already displaced before the genocide

7.4 million Palestinians displaced to outside of Palestine

~ 1.5 million registered refugees with UNRWA in Gaza (prior to Oct 7, 2023)*

~ 913,000 registered refugees with UNRWA in the West Bank*

*Figures for UNRWA registered refugees don't account for those who have been internally displaced within the WB and Gaza strip since 1967 due to home demolitions, raids and expulsions

Home Demolitions

2023

1,171 structures were reduced to rubble in the West Bank, including East Jerusalem

457 of them were residential structures

1,044 children left homeless due to these demolitions

11,634 total Palestinian structures demolished since 2009
18,800+ were displaced

This includes homes, commercial properties, and other buildings

Palestinian Hostages

9,900+ Palestinian hostages in Israeli custody [Sept 2024]

3,332

administrative detainees

1,761+

in Gaza

240

Children

*"Prisoners" are held by a legitimate authority. Per the 2024 ICJ advisory opinion, Israel's occupation of the West Bank and Gaza Strip is illegal and must be brought to an immediate, unconditional end. Israel thus lacks legitimate authority and is a hostile force which takes Palestinians hostage for political ends.
